Use the table below to identify and assess risks to the safety, health or wellbeing of children attending the excursion, and specify how these risks will be managed and minimised (regulation 101(1)). This must include any risks associated with water-based activities

A hazard is defined as anything that has potential to cause harm, injury, ill health etc. in some way.

A risk is defined as the actual chance that the hazard will cause harm.

Use the risk rating matrix overleaf to assess the risk's severity by finding the intersection of consequence and likelihood
